## OBJECTIVES

Upon completion of my studies I would like to get experience in a creative and open minded company with diverse and inclusive workforce.

In the mean time I have joined the “Erasmus+” student program ,so I am looking for at least 6 months practical experience in a reputable organization to utilize my networking and programming skills

I enjoy working in teams and receiving instruction that will enhance my technical ability.

I am passionate about SW Engineering and selected to study it based purely on that passion.
